Whether by a Mine or Submarine Is Not Yet Known

CARRIED A COMPLETEMENT OF 750 MEN.

SEVENTY-TWO RESCUED

Official Bureau at London Makes Brief Announcement of This Latest Naval Disaster to Great Britain, Which Occurred in the English Channel.

ASSOCIATED PRESS TELEGRAM.

London, Jan. 1.—The British battleship "Formidable" was sunk this morning in the British channel by either mine or submarine according to an announcement given out by the official information bureau.

The text of the bureau's statement follows:

"The battleship 'Formidable' was sunk this morning in the channel, but whether by a mine or a submarine is not yet certain.

Seventy-one survivors have been picked up by a British light cruiser and it is possible that others may have been rescued by other vessels."

The British battleship Formidable had a displacement of 15,000 tons and was 430 feet long and carried a complement of 750 men. She was heavily armored and carried four 12-inch guns, twelve 6-inch guns and sixteen 12-pounders. She was protected also with four submerged torpedo tubes.

The Formidable was launched in 1908 and was a sister ship to the Irresistible and Implacable. The Formidable had assigned to her, according to the British navy, for December, various fleet officers, and consequently she undoubtedly was acting as a flagship at the time of her destruction. Her captain was Arthur N. Lox and her commander, Charles F. Harl. Captain John C. Deed was in command of the marines on board the fleet surgeon was Godfrey Flor and the fleet paymaster was J. Ling. The chaplain is given as Rev. George B. Robinson. On board the Formidable were also six hundred and thirty men.

## Five Lives and \$25,155 Is The Fire Demon's 1914 Toll; Fire Chief's Yearly Report

Newark's experience with fire in the year just closed, cost her five lives and a property loss of more than \$25,000, according to the annual report of Fire Chief Louis Bausch, submitted to the mayor and public safety director this morning. The five lives were all lost in the one blaze—that of the Kern Hotel last January, when five lodgers were trapped in the building and burned to death. In the same blaze, six persons were seriously injured.

The loss per capita amounts to but .9 cents, which is the lowest in many years. Last year's loss was less than that sustained in the year 1913, when there were a number of serious blazes.

Chief Bausch again calls attention to the fact that the careless use of matches is the cause of the greater number of fires. Fourteen of the calls to which the fire department responded in the year, were due to that cause alone, and five of them were traced directly to carelessness by adults. The report in full follows:

Gentlemen—I herewith submit my annual report of the operations of the fire department of this city for the year of 1914.

There were, during year of 1914, ninety-four fires and alarms of all classes. A decrease of seven from the year of 1913.

In matter of losses there is cause

for congratulation, as the following figures will show at a glance.

Per capita loss—	Years.	Losses.
\$2.24	1913	\$569.43
Per capita loss—	Years.	Losses.
\$.89	1914	\$251.55

Being the duty of the department to prevent, as well as extinguish fires, frequent inspections are made by members of the force, especial attention being paid to the business districts of the city. Department inspected 2820 of these places during the year. The small number of rubbish fires whose total losses aggregated only \$5.00, is proof positive that the prevention work of the department was productive of much good and proves encouraging; besides causing compliance with laws and ordinances designed to prevent fires and reduce fire hazards.

The most difficult problem seems to be the careless use of matches, which resulted in fourteen fires, whose losses totaled more than \$2000. For those who cannot be taught to be careful with the ordinary match it is, indeed, very fortunate that the safety match, which strikes only on the box and which is now being manufactured in this country is coming into more general use.

Unfortunately, there were five lives

## PROHIBITION WILL STAND IN CZAR'S EMPIRE

PETROGRAD AND MOSCOW COUNCILS REJECT PETITION TO SELL LIQUOR.

Final Order Came Unexpectedly and No Chance Given to Lay in Any Stock.

ASSOCIATED PRESS TELEGRAM.

Petrograd, Jan. 1.—The last appeal against Russia's prohibition decree failed Thursday when the councils of Petrograd and Moscow rejected a petition to authorize the recommencement of the sale of beer and light wines. The recent final order to discontinue the sale of all alcoholic drinks was issued with the reservation that the city councils should have the right to appeal for an authorization of the recommencement of the sale of 3 per cent. beer and light wines.

The final prohibition order was so unexpectedly issued that there was no opportunity to provide a stock against the coming period of abstinence. Between six and eight o'clock in the evening the merchants received instructions that next day there would be absolute prohibition and hence there was no chance to give warning to eager customers who, on false alarm previously spread abroad, lined the streets for hours awaiting their turn to squeeze into the crowded wine shops.

The formerly popular restaurants, which managed to weather the vodka edict are now almost without patronage. The liquor dealers, restaurant keepers, wine growers and distillers brought all possible influence to bear on the city councils for authorization to sell beer and light wine, assisted by theorists who, while approving the general sobriety thought that abstinence should come more gradually and that the sudden cessation of the use of all alcohol would have an injurious effect. But despite these influences and the fact that not one per cent. of them was of the city councils were totalitarians, the councils rejected the petition by a vote on a ratio of more than 4 to 1.

The extreme measures to enforce prohibition even extended to the sale of denatured alcohol, varnish and every conceivable alcoholic compound which are not saleable without a permit.

BRAZIL'S PARLIAMENT. Rio Janeiro, Jan. 1.—The Brazilian parliament, which held its final session yesterday, adopted a resolution expressing the hope that peace would speedily be re-established in Europe.

## Police Court Handles 1994 Cases During Year Just Past; Patrol Wagon Makes 1563 Runs

According to the annual report of Police Chief James S. Sheridan just submitted to Mayor Bigbee and Safety Director Carl S. Dayton, there were just 1994 cases arraigned before the mayor in police court during the year 1914. Of this number 1089 were prosecuted under the city ordinances and 905 under the statutes.

Of course the one charge which was prosecuted the greatest number of times was intoxication. Of the 1994 cases \$38, or nearly half were for intoxication. Of these cases, 503 were prosecuted under the statutes and 354 under the city ordinances.

There were 116 cases of assault, 63 cases of petit larceny, 106 cases of train riding, disorderly conduct, etc. The various arrests were divided as follows.

State Cases—Intoxication 503, robbery and grand larceny 24, petit larceny 48, burglary 6, assault 97, adultery 12, trespassing 3, selling adulterated milk 1, vagrancy 6, failure to provide 7, obtaining money or property under false pretenses 24, illegal sale of liquor 26, using optical 3, destruction of property 17, gambling 27, carrying concealed weapons 11, resisting an officer 6, assault to rob 8, violation of auto

## CUSTOMS RECEIPTS HAVE FALLEN OFF ACCOUNT OF WAR

ASSOCIATED PRESS TELEGRAM.

New York, Jan. 1.—The war in Europe is reflected in the New York customs receipts for 1914, made public today. Receipts were approximately \$147,000,000 representing a falling off of about \$36,500,000 from the figures of 1913. Imports of merchandise were about \$75,000,000 representing a decrease of more than \$35,000,000. Domestic exports in 1914 amounted to approximately \$500,000,000 a decrease of nearly \$105,000,000. Imports of gold and silver were about \$24,000,000, a decrease of approximately \$20,500,000. Exports of domestic gold showed an increase, the approximate figures being \$155,400,000 in 1914 and \$116,500,000 in 1913.

Mr. Charles Dugan and daughter Ethel and Miss Olive Toothman of Bladensburg, spent Wednesday and Thursday with Mr. and Mrs. J. W. Davidson of West Haverhill.

## IRRITATION DISPELLED IN ENGLAND

By Publication of Text of United States' Note of Protest

MANY SAW IN CITIZATIONS, AN UTL MATUM

PERUSAL OF CONTEXT

Put An Entirely Different Light Upon the American Note of America, in Questioning Britain's Unwarranted Interference With Commerce.

ASSOCIATED PRESS TELEGRAM.

London, Jan. 1.—The publication in London of the text of the American note to the British government of the question of unwarranted interference with American shipping has dispelled an irritation occasioned by the incomplete sense of the first summary of the communication cabled from the United States.

There were certain Englishmen who saw something like an ultimatum in the cabled extracts but a perusal of the actual context of these particular phrases has dispelled this conception.

The Pall Mall Gazette voices the general opinion when it says: "We could perhaps place our finger on certain contents advanced in the note which show some failure to appreciate the difficulties of our position, but it is not our business to chop logic with the government of the United States. Sir Edward Grey may be trusted to give the government of President Wilson all the satisfaction it can properly ask while at the same time indicating with courtesy and firmness the measures our position as a belligerent power compels us to continue. The government of the United States has shown every disposition to itself in our place and recognize our difficulties. "Our government will not show itself to be less fair-minded than of President Wilson. Short of risking our best weapon for the war to a successful end, nothing will be left and meet the wishes of the States."

The close of the fifth month war finds Germany still in a position of virtually the whole of the territory in the western theater of hostilities, and a considerable of Russian-Poland along the eastern front, a thousand miles as it appears, nevertheless, that Germany, for the present at least, is unable to make further headway. British commentators today call attention to the fact that the initiative for the allied commanders and the recent German public utterances to the effect that Germany is waging a defensive war to move her territory from invasion is accepted here as an indirect admission that the battle on two fronts, a thousand miles apart.

## NO LAWYERS IN THIS COURT TO BE HELD IN CHICAGO

ASSOCIATED PRESS TELEGRAM.

Chicago, Jan. 1.—A court of convenience—a court without lawyers where the people may plead their own cases—will be established here late in January as a branch of the municipal court, Chief Justice Harry Olson announced today. Its aim will be to simplify justice and reduce the cost of "going to law."

The object of the new court will be to make litigation less expensive," Judge Olson said. "No lawyers will be needed to obtain justice. The complainant will present his own case and the defendant will voice his own defense.

"Technicalities will be eliminated from decisions and much injustice may be averted. Under the present system both parties are obliged to retain lawyers."

## American Note Received With Favor In Italy

ASSOCIATED PRESS TELEGRAM.

Rome, Dec. 31.—(Delayed in transmission.)—The American note to Great Britain, protesting against the interference with American merchantmen, has produced an excellent impression here, not only because it may tend to avert exactly the same difficulties encountered by Italian commerce, but also because it is hoped that it may lead to a more complete set of international rules protecting the commerce of neutrals in their rights while still safeguarding the rights of belligerents.

The American ambassador here is working most earnestly to secure an amelioration of conditions interfering with American commerce. He believes that the interests of American Italy are in union in this matter, and has used every effort to relieve the situation.

# NO MORE ACHING LAME BACKS!

When it's hard to straighten up quickly and there's a "crick-in-your-back" every joint and muscle in your body aches and you have that "dull, sore" feeling, ask your druggist for a bottle of Hoff's German Liniment. This famous, stainless, greaseless, refreshing odorless liniment is made from the same formula as the doctors use with such success in Germany. It is pure and white as snow and it won't soil the finest clothes.

For 13 years Hoff's German Liniment has been the unequalled remedy for Rheumatism, Lame Back, Neuralgia, Sore Throat, Cold on the Lungs, Cold in the Head, Bruises, Sprains, Aching Joints, Sore Feet, Corns, Bunions, etc. It can be taken internally for Colds, Coughs, Croup, etc. It is powerful and penetrating. Fine for children. Nothing like it in existence for stopping pain. Made from white emulsion of camphor cream with other pure, harmless, effective ingredients. Everyone knows the value of camphor for relieving pain, but its great drawback is that it leaves the pores open. Hoff's German Liniment keeps the pores closed—keeps colds out.

Sold in handy bottles for all druggists—a quarter pint for a quarter; large family size, 50c. Results absolutely guaranteed, or druggist is authorized to return your money without argument. Avoid disappointment by not taking "something just as good."

This is the day to trade off that grunt for a smile.

May your worst year in the future be better than your best year in the past!

There are days when the official dispatches from the war are nearly as correct as the unverified rumors.

There are new ways of saying it, but none better than the simple, old "Happy New Year." So we'll let it go at that.

It is believed that if the watch-night services would end up with a dance the young people would feel it their duty to attend.

Tickets are selling for the Jackson Day banquet, January 8. As the number is limited, better get in before it's too late.

This is January 1 and already we have received several bills. It begins to look like the X will go out of merry Xmas after all.

When one of the warring powers issues a bulletin claiming a great victory, it seems particularly likely that they were well licked.

Many people generously decided to satisfy the grocer who is dunning them for payment January 1 by giving him another order on credit.

Business is going to hum again soon, and the factory stacks will soon be smoking, on the word of no less authority than Charles M. Schwab.

Contrary to the expectations of all their admiring friends the young folks home from college are not able to recite the entire text of Virgil's Aeneid by heart.

When a person receives gifts of seventeen calendars for the coming year it would seem as if it ought to be good form to get out the letters of thanks by the carbon copy method.

It was formerly customary to give many presents New Year's day but after Christmas nowadays one would feel like sending out letters of thanks to his friends for not sending anything more January 1.

It is now up to you to write a letter of thanks for that fancy collar box that takes up all the room in your bureau drawer where formerly you were also able to put neckties handkerchiefs, and shirts.

Whether the New Year that has just arrived will be "happy" as friends are hoping today, depends in a great measure upon one's self. Exceptional conditions may make happiness impossible, but good, hard work, right thinking fair square treatment of others, gentleness, kindness and charity will go a long way towards bringing it about.

## Jan. 1 in American History.

1815—General Jackson's American army repulsed a British attack on the besieged lines below New Orleans.

1878—Resumption of specie payments in the United States after suspension for eighteen years.

1913—The United States parcel post service was inaugurated.

## ASTRONOMICAL EVENTS.

Evening stars: Jupiter, Saturn. Morning stars: Mars, Mercury, Venus. January constellations visible about 9 p. m. as follows: Overhead, Perseus, Andromeda, Cassiopeia, Aurica; north, Ursa Minor, Draco, Hercules; north-west, Cepheus, Cygnus, Lyra; west, Pegasus; southwest, Arcturus, Cetus; south, Eridanus; south-southeast, Taurus, Orion, Canis Major; east-southeast, Gemini, Canis Minor; east-northeast, Leo; northeast, Ursa Major (Great Dipper), Bootes (partly visible). Evening stars of the month: Jupiter, Saturn. Morning stars: Mars, Mercury (to 4th), Venus.

## Jackson Banquet.

At the Jackson centennial banquet to be held in the Hibbert & Schauss building hall, Friday evening, January 8, 1915, the out-of-town speakers and their subjects are:

"Andrew Jackson".....  
Ex-Governor Jas. E. Campbell  
"Democratic Humanity Vs. Republican Aristocracy".....  
Stuart R. Bolin of Columbus  
"Our Courts and Some Other Things".....  
Judge S. M. Douglass of Mansfield  
Addresses also will be made by local speakers.  
Admission by tickets only.

## Woodrow Wilson and 1916.

(New York World.)  
The Washington correspondent of the Sun is authority for the assertion that "the opposition within the Democratic Party to the renomination of President Wilson appears to be crystallizing around Champ Clark."  
This may be true, but we doubt if Champ Clark regards such support as flattering or important. We doubt still further whether he is ambitious to play James G. Blaine to Woodrow Wilson's Benjamin Harrison. The role would hardly appeal to him.  
After all, who compose this opposition to the president's renomination? Murphy and Tammany Hall, of course. William R. Hearst, of course. The Democratic job-mongers in the United States senate, perhaps. Southern Democrats like Cole Blaise of South Carolina, Vardaman of Mississippi, and Colquitt of Texas, whose opposition is a compliment to a real Democrat. What do they all amount to in the councils of the Democratic Party? How many delegates can they send to the next Democratic National Convention?  
Whether President Wilson is nominated or not depends upon himself. If he wants a renomination, the opposition will prove as weak and futile as the opposition to Cleveland. If he refuses a renomination, the party will be beaten in advance of the election, for he is the only candidate it can possibly elect.

## Spirit of the Press

**What Is Needed.**  
The Comptroller of the Currency wanted is more power to keep bank of national-bank officers for infractions of the law. Experience, however, seems to teach that what is wanted is more power to keep bank officers in jail after they have been prosecuted and convicted. —New York World.

**Teaching Fletcherism.**  
Horace Fletcher is teaching the Belgians to get along with half as much food by chewing it more. Nearly a century before Count Rumford taught the armies of Europe that they could make their food go further by chewing it longer. But when people are hungry they are apt to bolt their food nearly as fast as they can swallow it. —Pittsburg Dispatch.

**Help for Belgians.**  
Help for the Belgians will have to be continued for some time. The ordinary occupations of life can be carried on only to a very limited extent in a country situated as that is, and the world can't leave the Belgians to starve. Five steamers loaded with food have sailed from this port; other cities have done much, and a ship from every State in the Union is the latest suggestion. All will be needed. —Pittsburg Record.

**Canal Transportation for Coal.**  
Pennsylvania railroads emit an agonized moan at the reduction of the coal freight rate; but they have themselves to blame. Coal ought not to be carried by rail where waterways are feasible. Very short-sighted American railroads did everything they could to wreck the canal. Germany, pursuing the opposite policy, has seen canal traffic increase fivefold in 20 years, while rail traffic has increased 3.5 times. There, as in France, canals carry coal and building materials, leaving more profitable freight to the railroads. If our canals had been kept up we could easily have had cheaper coal and more profitable business for the railway lines. —New York World.

**War and Business.**  
The industry of a rich developed and industrially well-organized nation never dies. War will not suppress it unless the invader gets in among the factories, as in Belgium. In Germany, France, Great Britain and Russia business is not as brisk

as in peace, but nevertheless it is going on at a rate that surprises those who have forgotten the experience of our Civil War. We have been assured that France has raised great crops and has had a good vintage. It is Germany's turn to be heard from and the trade data collected by our government affords indisputable proof that German industry is not dead throughout the empire. The government is following the rule in sparing no effort to keep trade moving and to hold customers. —Boston Transcript.

**Please Quit Today.**  
On Jan. 1 Gov. Cole Blaise, the pardon specialist, will join the ranks of private citizens. —Albany Journal.

**Colquitt and Wilson.**  
Governor Colquitt, of Texas, who thinks the Wilson administration a failure, appears to be of the Joe Bailey brand of statesmanship. Bailey had the grace to retire from the Senate voluntarily, and Colquitt will give up the governorship this month. Woodrow Wilson will be a force in politics long after this precious pair have sunk into obscurity. —Philadelphia Record.

**Fashion Note.**  
Christmas savings "checks" will be popular again next December. —Zanesville Signal.

**Outside the Constitution.**  
The Constitution of the United States doesn't apply to the Southern negro or Harry Thaw. One is beneath the law, the other above it. —Boston Transcript.

## Pointed Observations

For 1914 it can be said, at least that it has maintained its supply of weather to the last. —Pittsburg Gazette Times.

The best way to cure a cold is to avoid catching it. —Albany Journal.

Through the action of Justice Lamar, the Frank case will go before the United States Supreme court for review. This is as it should be. —New York World.

After January 3 Philadelphia for a few weeks will cease to be regarded as the sleepy city. Billy Sunday will keep it wide awake. —Pittsburg Gazette Times.

A Chicago University professor said, after he had fasted five days, that death by starvation is painless. But since he is still alive, how can he know? —Albany Journal.

Jude Johnson paid his war tax this morning. He was fined \$15 in police court for having whipped Mrs. Johnson. —Atchison Globe.

It must be admitted that the ownership of the Panama Canal requires not only great wealth but exceptional politeness and patience. —Washington Star.

Though living in Vermont, Admiral Dewey has always been a Democrat. No wonder he's a fighter. —Florida Times Union.

Naval operations appear to be more and more on a guerilla basis. —Springfield Republican.

A lot of time is being wasted by the Republican leaders trying to make a fool of President Wilson. —Baltimore Sun.

The cables report that a revolution in Portugal, led by an ex-Colonel, "has been promptly put down." Same here. —St. Louis Post Dispatch.

After four years of war, it is said, Mexico is short of food. And, if one may judge by its actions, it is short of sense, too. —Indianapolis News.

## Luke McLuke

(Cincinnati Enquirer.)  
Most of the men who are seeking Positions are Dodging Jobs.

When a girl marries she usually loses a good friend and gets a grouchy boarder.

Politics is one of our most popular sports because you can talk it all day and not know a blame thing about it.

The man who has 10 or 11 hairs on his dome always pities a baldheaded man.

The first baby gets a silver mug, a gold ring, an ivory rattle and about \$200 worth of fine baby clothes. But the sixth baby is lucky if it gets two napkins and a ten-cent box of corn starch.

There isn't any fun in fishing if you have to catch fish for a living.

The lad who loafs around and owes everybody in town is the same fellow who is deeply worried because the Panama Canal isn't paying expenses.

Always remember that if you got all you prayed for there wouldn't be enough to go around.

That longing to pay board for the other half of the world is what causes all the trouble for our half of the world.

If a girl's hair is naturally curly she just hates to wear a hat when she goes downtown.

Adam blamed it on the woman. And when the rest of us get caught we can't think of a more original excuse.

After you get to know some men you wonder why they do not have holes in the brims of their hats so that their ears will get a chance to grow to their proper length.

**A Woman's Advantage.**  
She—Women are more resourceful than men.

He—I guess that's right. A man has to get his clothes made to fit his shape, but a woman can get her shape made to fit her clothes. —Philadelphia Record.

## THE CHEERFUL OPTIMIST

## Uncle Walt

## BURDEN OF WEALTH.

I never yet have seen a Croesus who was gay; too much of old long green drives happiness away. The coin is goodly stuff, it is not vulgar dress, and when you've got a total loss. But when you have a pile as big as Johnson's barn, you find you can't not smile or chortle worth a darn. By day it fills your mind, you dream about your wad, and man was not designed to make long green his god. All happenings on earth to you important seem, according to their worth to your financial scheme. Your viewpoint soon is wrong, your estimates are rash; you hold men weak or strong, according to their cash. No merit can you trace in genius clothed in rags, but you've a warm embrace for old man Money Bags. You see all Europe wrecked, and wet with gory ponds, and talk of war's effect on mortgages and bonds. And when, on Judgment Day, we stand, in frightened ranks, we'll doubtless hear you say, "This will disturb the banks!" Ah, letter to be broke, and full of prunes, and sans, and think this world a joke, than give our souls to gain.

## FORMAL OPENING PANAMA CANAL; NAVAL PARADE

(Associated Press Telegram.)  
Washington, Jan. 1.—Navy department officials are considering revising their program so as to permit naval vessels of South American countries to join the international fleet in southern waters prior to the naval parade at the formal opening of the Panama canal so that they will not be obliged to make the long voyage to Hampton Roads where the American and European ships will assemble.

Final details for President Wilson's trip south for the canal opening and for transportation to the ceremonies of members of congress, foreign diplomats, and other invited guests have not yet been worked out, but are expected to be completed within a few weeks.

A surgeon's attitude toward the operation of removing the vermiform appendix of his patient is that, rather than be denied the privilege, he will do it for nothing.

Buck Kilby, whose marital relations are none too felicitous, has no patience with the theory that the devil is of the masculine gender.

The most effective protection for a woman is the fact that she is a good woman.

The rule is that those who are enthusiastic about the farm never saw one close at hand.

Nearly every man practices cannibalism to the extent of eating a little mutton now and then.

It is the rich grandfather who is suspected of being mentally incapable of properly managing his own affairs.

When a man has no chance of being elected to office he says his wife won't let him run.

Give the average man's artistic feeling free play and the probabilities are that it will express itself in a pink necktie.

Buck Kilby says a well-to-do bachelor is one who has no love affair.

The trouble with a good many of the unemployed is that they are not looking for jobs, but for positions.

## THIS MAN HAS A REAL KICK COMING ON EUROPEAN WAR.

(Associated Press Telegram.)  
Pittsburg, Jan. 1.—Until the warring nations of Europe sheath the sword and get down to the business of making anti-entire instruments again, the Pittsburg station of the weather bureau will have to worry along without a tele-thermoscope. Several weeks ago, when the first severe cold of the season arrived here the tele-thermoscope was broken, and appeals to Washington for another have been without avail. Many of the weather bureau instruments are of foreign manufacture and it is believed here the government will be unable to repair the loss until the regular channels of trade are again opened. The tele-thermoscope is a useful little instrument in that it allows the observer sitting in his comfortable office to tell the temperature at a glance and without it he must climb a 60 foot ladder on top of a 300 foot building when he desires the information.

## WATER WORKS COLLECTIONS SHOW INCREASE

According to figures given out by Service Director W. C. Christian Friday the collections in the sewerworks department for the year 1914 amounted to \$41,563.37, an increase of \$2,245.91 over the receipts for 1913. The total collections in the service department from all sources amounted to \$58,585.30.

The collection from different sources were:

Sewer permits	\$ 620.00
Building permits	181.50
Market stall rents	118.00
City scales	567.55
Rooms in City Building	104.00
Miscellaneous	256.28
Total	\$1,947.83
Cemetery receipts	12,354.37
Water works	44,563.37
Total	\$58,865.57

She also sustained a cut over the left temple and was slightly bruised about the body. She passed a very good night and attendants at the hospital stated that she would be enabled to go to her home in a few days.

Mrs. Frizzle's escape from fatal injuries was miraculous and was probably due to the fact that the motor-man reduced his speed and that she saw the car in time to throw herself away from the car before the impact came.

123 HOMICIDES IN  
PENNSYLVANIA AND  
NOT ONE HANGING.

(Associated Press Telegram.)  
Pittsburg, Jan. 1. — There have been 123 homicides in Allegheny county in the last two years and not one of the slayers paid the death penalty. This is shown by the report of the coroner's office made public today. During 1914 there were 56 murders while there were 67 in 1913. The record shows there has been no lacer executions during the same year.

**QUARANTINE  
IN LICKING  
NOW LIFTED**

The quarantine against foot and mouth disease in Licking county was practically lifted Friday morning by an order received in Newark from the State Department.

According to this order the free shipment of live stock is permitted from farms outside of a limit of three miles from infected farms, for immediate slaughter, to any point outside or within the state upon state, federal or municipal inspection. This stock must be inspected at the point of shipment by Dr. B. D. Woolley of Johnstown, or Dr. Fred Priest of Newark, and each shipper must present an affidavit that the stock comes from a point three miles distant from infected districts. Illeborn is within this distance and so will not be a shipping point until released.

**RICH MEXICAN EXECUTED.**  
 (ASSOCIATED PRESS TELEGRAM.)  
 St. Louis, Jan. 1.—Mamuel García Lugo, a general in the Mexican federal army, was executed last month on his hacienda in the state of Coahuila, according to word received here last night by Zach Tinker, his father-in-law, through the state department at Washington. General Lugo was the Mexican military representative at the Louisiana exposition here in 1904. He married Miss Carrie Tinker of St. Louis. He was reported to own \$0,000 acres of land and other valuable property.

Rheumatism is no respecter of age, sex, color or rank. If not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat less meat, dress as warmly as possible, avoid any undue exposure and, above all, drink lots of pure water.

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also the means of its escape. In case of kidney inactivity, the deep and chilly, cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Gla's Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action thus ridding the blood of these impurities.

And Sals is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

**The Newark Y. W. C. A.**

Since the organization of the Y. W. C. A., about two years ago, the work has grown, and the scope of the organization has broadened so rapidly that the officers and members feel greatly encouraged.

The Y. W. C. A. has become an important factor in the lives of many of the young women of the town—mentally, physically, morally and spiritually. Today our building is filled to the utmost. Girls from adjacent towns coming to work in the factories of our city, who want home-like surroundings, find a welcome here, and are given room and board—

more than 800 people, and no subscription was too small for us to accept gladly, and handle with the same care and attention as those that went into the hundreds of dollars. That payment of these subscriptions in most cases has been promptly made. So far, the expense of carrying out the work has not exceeded the budget, and we hope to carry on our third year's work on the balance of the money that has been raised, and when your statements of amount due reach you, on the first of the year, respond promptly, and save us the expense of a collector.

Irrespective of religion—at a very low rate. We have girls and women applying every day for work, and please don't forget them when you are wanting help. Within the walls of the Y. W. C. A. the girls find a source of support for many of their needs. Few people understand the work of the association. It is in reality a betterment agency, with its efforts constantly directed toward the enlargement of the kingdom of God.

It is the aim of the association to work for the betterment of all women in every phase of life. We seek to better her condition financially by aiding her to find and fit her for

Our new secretary Miss Childs comes to us, brim full of new ideas and plans for the winter's work, and with the able assistance of Miss Ruth Crosby, we hope for great results. These two workers come into close, intimate contact with the girls of our city, who work in the different factories, and plan entertainment for them once a week at the Y. W. C. A. rooms. We have our good times clubs here in the home, our out-door sports and hikes. In the summer we had our camp and restful times in our campground. The care and watchfulness of Miss Crosby and Miss Van Horn.

more lucrative employment through our educational department. Through our physical educational department—the gymnasium—we endeavor to aid her to health and physical development, that she may be better prepared to do her work. Through our clubs and classes and general entertainments we supply her social opportunities of the wholesome kind, and last but not least, through our religious department and Bible classes, we supply the need of her spiritual nature. Many girls and women pass through our doors every day, and enjoy the privileges afforded by the association. To meet these needs it requires money. Our campaign for raising money two years ago, as you all remember, was very successful. Just \$12,700 having been subscribed.

Many girls come to the Y. W. C. A. for the educational advantages it offers, in a course in basketry, or domestic science, or in sewing or millinery, or in physical culture in the gymnasium.

We invite the public to come to our meetings. Come and inspect our building, and by all means, come and meet Miss Childs and Miss Crosby and let them tell you of some of the wonderful results of their work.

## PROGRESS

OF WAR AS VIEWED IN AUSTRIA  
SET FORTH IN OFFICIAL  
REPORT.

This Statement Gives Details of  
Movements That Have Resulted  
in Successes.

(ASSOCIATED PRESS TELEGRAM)

Vienna, Jan. 1.—(Via Amsterdam and London.)—An official announcement on the progress of war was given out in the Austrian capital today. It refers to events of yesterday and is as follows:

"In Bukovina and the Carpathians the Russians developed great activity. Our troops are holding their positions on the Suczava river in the upper Carpathian territory also further west on the ridge of the Carpathians in the valley of the Nagayag where yesterday near Ockormezoe, an attack of the enemy was repulsed with heavy losses to him in the upper Latorozza district and north of the Uszok pass. To the west of this pass all other passages over the Carpathians are occupied by our troops.

"In the district of Gorlice and to the northeast of Zakliczyu determined Russian attacks were repulsed everywhere.

"On the Nida everything is quiet. Further to the north the attacks of our allies are progressing.

"In the Balkan war line everything is quiet. To the east of Trebinga our artillery compelled the Montenegrins to retreat.

## DEATH COMES SUDDENLY TO CHARLES BOLIN

Charles H. Bolin, aged 57 years, a retired farmer living in East Main street, died suddenly at his home Thursday afternoon. His death being due to apoplexy. He had been in failing health for two years, but it was thought that his condition was showing some improvement in the past few weeks. Last summer he suffered an attack of blood poisoning, which affected his hand, and while the trouble was arrested he never fully recovered.

Thursday morning he went to the farm house a few miles east of the city, near Swan's blacksmith shop. He looked after some odd jobs about the farm and returned home about the middle of the afternoon.

He was seized with an attack of illness and lay down on a couch in the living room. His wife believing he was only slightly indisposed left him for a moment while she prepared something for his relief, but before she returned he was unconscious and soon passed away. Drs. Stimson and Downs were called, but Mr. Bolin was dead before they reached the house.

Mr. Bolin was born near Mt. Sterling, Muskingum county, February 25, 1858, being a son of John Bolin. He came to Licking county in 1876, settling on the farm east of the city. He had lived all his life on this farm or in East Newark.

He was married to Miss Mary Conaway of near Hanover, May 18, 1883, and to this union two children were born, Wilfred C. Bolin and Nellie May Bolin, both of whom with the widow, survive.

Three brothers, W. H. Bolin and J. P. Bolin of Zanesville, Dr. E. C. Bolin of Columbus, and one sister, Mrs. S. E. Vandenberg of Newark, also survive.

Mr. Bolin was a past master and charter member of Acme Lodge of Masons, and was also a member of Warren Chapter and Bigelow Council, both of the local lodge of Masons.

Funeral services will be held Monday at the family home in East Main street, at 1:30 p. m. Rev. Calvin G. Hazlett of the First Presbyterian church will officiate. Burial in Cedar Hill cemetery.

Franklin Brubaker's funeral. The funeral of B. Franklin Brubaker, who died suddenly Thursday morning, will be held Sunday afternoon at 1 o'clock at the Pine Street Christian Union church. Rev. Mr. Benton officiating. Burial in Cedar Hill cemetery.

1,696 N. Y. FAILURES. (ASSOCIATED PRESS TELEGRAM) New York, Jan. 1.—A bankruptcy petition filed during 1914, established a record for this city since the present law relating to bankruptcy went into effect in 1898. Figures published today show there have been nearly 21,000 petitions since the act became effective.

THE MANNER OF SOCIETY. The Manner of society held their annual holiday celebration at Schaller's hall in W. Main street Thursday evening. ## INVENTOR DIES AT SPRINGFIELD

(ASSOCIATED PRESS TELEGRAM) Springfield, O., Jan. 1.—Frank R. Packham, manager of the experimental department of the American Seeding Machine company, and one of the best known men in farm implement manufacturing circles in the United States, died at his home in this city early today, aged 59 years. Mr. Packham had been ill for fourteen months.

Mr. Packham perfected the single disc drill and other implements now widely used in agricultural pursuits.

## MUCH CONSTRUCTION WORK BY THE CITY IN LAST 12 MONTHS

The city of Newark now can boast of 18,873 miles of paved streets, 25,735 miles of sewers, 40,225 miles of sidewalks, 79,219 miles of water mains, and 731 fire hydrants. These totals are new and include the finished street paving, sidewalks, sewers, and waterworks extension.

According to figures given out by the service department Friday, 10,505 feet, or 1,989 miles of street paving was completed in the last year. Besides this public service construction work there was 16,160 feet, or 3,067 miles of sewers; 12,414 feet, or 2,351 miles of sidewalks; 4,338 feet, or 822 miles of new waterworks extension, and 650 feet of brick sidewalks constructed by the city in South Second street, near Spring.

This work represents a large expenditure of money and meant many days employment for Newark workmen. It does not include paving work started, but not completed, there being three contracts of this character now held up by the cold weather.

There is other legislation pending for public work, which will be done during the coming year.

## NEW POOL ROOM HAS BEEN OPENED

Wilson's poolroom, corner of First and East Main streets, was opened to the public New Year's eve. Six new pool tables and one billiard table have been installed, and a fresh stock of cigars, tobacco and candies will also be kept constantly on hand. Magazines and daily papers will also be handled.

Workmen are engaged in building the horseshoe grounds in the room adjoining the poolroom on the west. Blueclay will be used and it undoubtedly will become a popular form of amusement.

The old, reliable Maxmillion Binder, better known as "Max," is assisting Mr. Wilson and his genial smile and cheery greeting were much in evidence at the opening. The "Wilson" no doubt will become a very popular place.

## FOREIGN EMBASSIES IN OTTOMAN EMPIRE TRANSFER ARCHIVES.

(ASSOCIATED PRESS TELEGRAM) Athens, Jan. 1.—According to Constantinople advices which have reached here the Austrian and German embassies in the Turkish capital are transferring their archives to Asia Minor, fearing that action is imminent by the British and French fleets against the Dardanelles and the capital. Foreigners, it is stated, are also preparing to quit the capital for the interior.

## A REAL PHILANTHROPIST.

Pedestrians will extend a vote of thanks to the caretaker of the court house yard for his generous distribution of sand all around the outside walks as well as those across the lawns of the court house. His action has probably saved many hard bumps if not broken arms and legs.

## EXPENSIVE RABBIT.

Lee, long a Hancock county farmer, paid \$25 for the privilege of shooting a rabbit on his farm. He went hunting without a license, and when brought before the squire pleaded as his defense that the rabbit gnawed his apple trees, but that did not save him from being fined.

## BURIALS IN 1914 REACH NEARLY 400 IN TWO CEMETERIES

There were fourteen more burials in Cedar Hill cemetery in 1914 than in 1913, according to the figures of Supt. A. J. Crilly, who has charge of the cemetery. In 1914, 339 bodies were laid to rest within the cemetery. In the year before there were 325. At Mt. Calvary cemetery, south of the city, there were forty-eight burials—a total of 387 in the two city cemeteries for the year. This will approximately represent the number of deaths in the city, as it is believed that the deaths in the city which were followed by burials in the county cemeteries will be offset by the deaths outside of the city where the bodies were brought to Newark and interred in Cedar Hill or Mt. Calvary.

## Granville

(Special to The Advocate)  
 Granville, Jan. 1.—Despite the condition of the sidewalks, which makes walking difficult and even dangerous, a large audience of music lovers assembled in the Granville Opera House Wednesday evening to enjoy the delightful program of Christmas Carols and Legends presented by Mrs. C. B. White and a large chorus of school children, assisted by Mrs. Jacob Rohrer, soprano, Mrs. C. D. Coons, contralto, Mr. Ralph Morrow, tenor, Mr. Karl Ashton, bass, Mrs. W. W. Davis, accompanist.

Those who heard last year's program were prepared for great things, but Wednesday evening's performance far exceeded the expectations of even the most sanguine. The program was entirely new, the singing of the children—many of them were tiny tots—was marvelous for its volume, precision, spontaneity and responsiveness to the leader. The quartet was admirably balanced, the voices beautifully blended and the effect produced by the quaint old music pleasing in the extreme. Mrs. Rohrer, in the two soprano solos, "The Holy Well," and "La Vierge a la Creche," has seldom been heard to greater advantage. The sympathetic quality of Mrs. Coon's voice was beautifully brought out in the solo, which, in contrast, carried in the "Alesian Carol," "Sleep, Little Dove," artistically rendered by the quartette, and in the solo, "One Wintery Night."

Mrs. White recited several legends of the Christ-Child in a way to touch all hearts. "The Little Gray Lamb" by Archibald Sullivan, "Robin Redbreast" by Selma Lagerlof, and "The Golden Cobwebs" by Robert Haven Schaffer eliciting rounds of applause from the audience.

Enjoyment was heightened by the brief explanatory remarks on the carols of different lands and languages, made by Mrs. White, and the audience felt that the evening had been one not only of delightful entertainment but of instruction as well, while those interested in the Public Library could feel assured of a neat addition to the fund, as Mrs. White had generously donated the proceeds of the concert to the cause. There seems to be one opinion of Wednesday night's concert, and that is that Mrs. White is wonderful. Her taste is exquisite, her judgment unerring, her power over the little ones almost magnetic, while any program arranged for the public by her is sure to be not only high class, but to hold a popular appeal as well, so that every one present finds enjoyment. These concerts by the little ones is a liberal education not only to themselves but to the whole community.

The Granville chorus was augmented and materially assisted by about twenty-five school children from Newark: Ralph Allen, Lydia Backenstoss, Dorothy Davis, Woolson Davis, Walter Davis, Elizabeth East, Cornelia Ellis, Merlyn Fleming, Dorothy Glenn, Esther Graef, Frank Graham, John Hart, Eugene Hamlin, Olive Howard, Harold Hulshizer, Eleanor Johnson, Charlotte Marvin, Martha Grace Miller, Dorothy Montgomery, Roy Sells, Martha Belle Sprague, Frances Sprague, Beatrice Stevenson, Janice Thompson, Helen Vogelmeier.

Miss Mary Roberts of Columbus, who is visiting her mother, Mrs. E. C. Roberts, entertained several friends at dinner last evening in compliment to her house guest, Miss Copeland of Columbus, and Miss Jennie Blinn of Topeka, Kansas.

Miss Elizabeth Morris of Columbus is the guest of Mrs. C. L. Williams.

Miss Eva Nixon, who is teaching in St. Mary's, W. Va., is spending the holidays in Granville with her parents, Rev. and Mrs. H. A. Nixon.

Mr. George Dorsey, Jr., of Chicago, arrived in Granville last night for a few days' visit at the home of his grand parents, Mr. and Mrs. E. J. Dorsey Broadway.

Miss Rachel Colwell has returned to Morgantown, W. Va., after a fortnight's visit with her parents, Dr. and Mrs. R. S. Colwell.

Mrs. H. A. Nixon of West Maple street, spent a few days in Columbus this week.

## PERMIT WAS ISSUED FOR PYTHIAN BLDG.

Through an error in checking over the building permits for the year, it was stated Thursday that no permit was issued for the erection of the Pythian Castle in East Main street. This permit was issued and the estimated cost of the building was placed at \$25,000. Service Director Christian states that the total value of buildings for which permits were issued amounts to \$275,515. As was stated Thursday, 121 permits were issued during the year.

## B. & O. ENGINEER WAS SLOWING UP

But Nerv-Worth Soon Put More Power Into Him—One Bottle Worked Wonders.

"For a long time I have felt as though I was 'slowing up' and my nerves had been in a terrible condition. They were simply on edge and the slightest noise would make me jump. My appetite was poor and what I did eat did me little good. I was restless in my sleep and often would stay awake hours at a time until I became unbearable. At times I was blue and despondent, without apparent reason. After trying nearly everything anyone told me about I decided to try Nerv-Worth. I have taken one bottle and am back after more, and I just want to say that Nerv-Worth does all you claim for it, and more too. I feel better than I have for years. I recommend it above everything else I ever tried.

In these words the well-known W. B. Dalton, then B. & O. engineer, running between Newark and Benwood and living in Zanesville, told what a world of good Nerv-Worth did for him. It will do the reader just as much if he's a victim of nervous disorders. Sold by T. J. Evans, the druggist, \$1.00 a bottle. Guaranteed.

## TEN KILLED ON ENGLISH RAILROAD

(Associated Press Telegram) London, Jan. 1.—Ten persons were killed and many others injured in a train collision this morning on the Great Eastern Railway, near Hford, five miles from London. Some of the railroad cars were reduced to splinters. The victims of the accident are mostly city clerks.

Government figures recently compiled show that the salt production of the United States last year reached the record-breaking total of 4,315,902 short tons.

## ICE HARVEST HAS BEGUN AT BUCKEYE LAKE

A number of people started cutting ice at Buckeye Lake on New Year's Day. The ice there is nine and ten inches thick and of a good quality. There are quite a few ice houses along the lake banks and these are being rapidly filled and there will be no ice famine at the lake next summer. There are now over five hundred summer homes along the shores of Buckeye Lake and when the resort opens it is estimated that there is a population of over 2500 making that place the largest of its kind in the state. It takes a great deal of ice to supply the cottagers. Scores of families live at the lake all winter and the men find work as caretakers, repairing of boats and cottages and storing ice.

## MAT SMITH HAS SIGNED WITH THE RINGLING BROS.

Mat Smith, the well known local theatrical man, has signed contracts with Ringling Brothers circus for the approaching season and has been assigned to a tour with the circus, leaving for Chicago sometime in March. Last season Mr. Smith traveled through to the coast and was in practically every large city of importance in the west and southwest. In his years upon the road he has been in every state in the union a number of times and has played all the larger cities of the United States, as well as many of the smaller ones. He had a splendid offer to sign with an amusement company and tour South America this season but preferred to remain in the good old United States.

## NEW YEAR IS GREETED WITH LESS REVELRY

A FEW BELLS AND SEVERAL WHISTLES GAVE NOTICE OF 1915'S ADVENT.

Watch Parties, Dances, and Other Social Functions Were the Night's Order.

The New Year was ushered in at midnight last night in a less boisterous manner than for a number of years. A few of the bells in the various churches were rung and there was a faint whistle or two and not a single discharge of firearms was heard in the up town district. There were very few people on the streets but there were many watch parties and dances over the city.

The movie houses all did a thriving business until eleven o'clock and scores of patrons then wended their way to the Victoria theatre where a watch party was being held. The latter party was comfortably filled early in the evening and an enjoyable bill was given by the Hall Players. "Pony Blunder," a four act drama, dealing with Washington society during the early days of the civil war. Mr. George Miller, the florist, presented each person in the audience with a souvenir buttoniere the flowers being of various designs.

At the conclusion of the play the audience was invited upon the stage and a dance was enjoyed. Those who did not dance remained in their seats. Many took advantage of the opportunity and tripped the light fantastic, the music being furnished by the Victoria orchestra which was seated upon the stage. Shortly before midnight Emmet McDaniel, the well known restaurateur served sandwiches to all the dancers and to each person in the audience. As the court house clock began the stroke of twelve scores of horns suddenly appeared and for awhile bedlam broke loose. The affair was a pleasing one and was enjoyed by all present.

The Elks entertained with a dance and watch party at Assembly Hall, a large crowd being present to welcome in the New Year. After the dance program and shortly before midnight hour a fine turkey supper was served. Hawkins and Nutter's orchestra furnished a varied program.

Friday, January 1, 1915, is the way it must be written today and no doubt there were many mistakes made by persons who had occasion to write it. The first morning of the new year was a delightful one. The sun came out early and smiled upon every one. May it be a good omen and the forerunner of a happy and prosperous year for every citizen in Licking county, in fact for every citizen of this great and glorious country.

## NOISY GREETING FOR THE NEW YEAR IN NEW YORK CITY.

(Associated Press Telegram) New York, Jan. 1.—Daylight today failed to quell the noisy and enthusiastic greeting which New York gave to the New Year. The revelry along Broadway continued far into the morning hours and the police, although they had little to do, declared the celebration the biggest of its kind in the history of the city. The record crowds which packed the all-night restaurants held their places till after sun up and at 6 o'clock this morning many of the larger restaurants were still turning would-be patrons away from their doors.

Homebound transportation arrangements characteristic of the evening rush hour were in effect and needed this morning on suburban lines and ferries.

## WASHINGTON QUIET ON ACCOUNT OF STATE MOURNING.

(Associated Press Telegram) Washington, Jan. 1.—New Year's day in the national capital was unusually quiet. Because of the formal state of mourning which has continued since the death of Mrs. Wilson, there was no reception at the White House. The annual "diplomatic breakfast" by the secretary of state to the members of the diplomatic corps had been abandoned because of the war, and many other time-honored ceremonies which usually play so important a part in the Washington official New Year celebration were omitted for the same reason.

President Wilson began the year by rising at 3 o'clock to push an electric button that opened the San Diego exposition at midnight. Pacific coast time. He spent the day quietly at the White House, receiving greetings from many callers.

## ROME GREETED NEW YEAR IN A UNIQUE MANNER

(Associated Press Telegram) Rome, Jan. 1.—A unique way of celebrating the entry of the new year took place here today. Usually the event has been celebrated by the explosion of fireworks and the firing of guns but as this was prohibited this year the people generally agreed to appear at open windows, glass in hand and cry "Viva Italia!" This was done and the effect was most impressive.

## What Goes On Behind The French Army Front

(By Ernest Ludwig, Consul Austria Hungary.)

The following is a special report of a French war correspondent to the "Munich-Ansauerger Abendzeitung," a very prominent German newspaper, WHICH WAS PASSED BY THE CENSOR.

General Joffre has availed himself of all military tricks to insure victory in the northeast of France. If he is beaten now, France would be a "has been." Everybody behind the front realizes that France's very existence is at stake in this last fight. No French general could even think of striking a second blow, if his army does not emerge from this gigantic battle absolutely victorious. Joffre HAS STATED TOO MUCH. ALL IS ON ONE CARD, and it is a V. BANQUE game. If this card is lost, the world will suddenly come to realize the hopeless conditions, behind the French army. Just now the battle cry is, Win or drown. There is no third alternative.

When I a fortnight ago (the report is dated October 16th) received permission jointly with numerous other war correspondents to follow General Joffre, the whole situation did not look bad. Thanks to the activities of the official and unofficial French circles in Italy the General could withdraw all troops from the South and Southeast of France. Thus he could muster an additional surplus of 200,000 men, which was a doubly valuable gain, as these were entirely fresh troops. To reinforce his position on the Marne and Oise he simultaneously withdrew the large contingent from the Southwest Front, near the Lake of Geneva, amounting to more than 150,000. There is strong evidence at hand that IN THE FIRST PART OF SEPTEMBER IT WAS PLANNED TO CROSS SWITZERLAND AND TO FALL INTO THE BACK OF THE GERMANS FROM BASEL. This plan, however, now has been abandoned by Joffre. Of course for the time being only. If he is victorious, it may be assumed with dead certainty that he will go back and carry out this plan. He who has lived in those parts of the country (Southeast corner of France) for the last week (the correspondent was there since August 10th) knows this to be true. General impression prevails, that hope and confidence that Joffre will win is much less to

be found in the ranks of the officers and the bourgeois element than in the ranks of the little man and simple soldiers.

I was first shown how it was expected to increase courage and confidence in the army, when we reporters were asked by the military authorities to pile into our automobiles carloads of papers from Geneva, Lausanne, Milan and Turin and distribute same among the soldiers! We had to do it and were thus able to verify that the cautious authorities had bought hundreds of thousands of copies of these papers containing cooked up stuff! Undoubtedly according to orders received from the French government which did not hold back with funds and knows the troubles of her patriots just as well as it knows the troubles of the various newspaper enterprises. These indeed will hardly ever have such an opportunity to bring out such gigantic issues and sell the whole issue at once. The papers mostly used in this way are the Secolo, Messagero, Corriere della Sera, Gazzette de Popolo, Journal de Geneve, Tribune de Geneve, and Gazette de Lausanne. I have personally verified that all items necessary to brighten up the hearts of true French patriots are carefully gathered and grouped according to a prearranged plan. In going over these papers I and my friends could also make the observation that among these copies there were also issues which had been confiscated the day before but had been rearranged "ad usum delphini militaris," the objectionable news items having been left out! If France will continue to enliven the COURAGE OF HER SOLDIERS IN SUCH A WAY, French owners of newspapers can go hang and bury themselves. Their papers enjoy no more credit. If they try to re-establish their reputation, they are instantly confiscated. Even in "Paris" the GOOD PRESS FROM ABROAD IS MUCH MORE IN DEMAND THAN THE FRENCH PAPERS which have lately endeavored to publish sober comments on the situation and have to their own prejudice adopted "un-French manners." In the faultless newspaper material imported by the French government with the assistance of their "system of primes on the im-

portation," the Paris press fixes a competition, which cannot be underestimated. CURIOUSLY ENOUGH, LONDON PAPERS ARE STRICTLY TABOO!

When you mention Englishmen let me tell you France shrugs her shoulders and feigns to ignore what you said. For a long time they have not been taken at their full value. Whenever I began to speak with serious men of the half or whole million of volunteers of Lord Kitchener, the absurdity of his enterprise was explained to me in words which did not smack of much respect for the British achievements. "If we had to wait until spring!" is the general reflexion. No, France has no time to wait and England does not seem to be in a hurry or else does not show it. And for this reason France does not trust any British promises, not any. There is only one consensus here and this concerns the comment on or better the condemning of up to date British achievements. I must say that until a fortnight ago I would not have thought it possible even in my dream to find—I will use a weak word—such an amount of animosity against England in the broad masses of the people. French people get the habit to hold the English responsible for every new defeat. The English on the other hand complain bitterly whenever they find a soul which understands their talk—for in 339 cases out of 1000 they can hardly say three French words—that the French use them as an "all round the house maid" and treat them accordingly. In the ordinary or better business life, the Englishman is certainly the most practical human being in the world. In this war, however, he appears to be the most helpless and impractical creature on God's earth and justifies to a considerable extent French ridicule of him. At Seals, Compiene and Meaux Englishmen have undoubtedly given good account of themselves. Even better than the French, whose dash was not very noteworthy in those fights. But when they had done their first work, the English, wanted to have a rest. Let alone battles lasting a fortnight, which are certainly not of their kind! Such a thing is too disastrous to their usual smart "getrip" which they like to maintain even on the battlefields. The sloppy, improperly clad French soldier they detect from the bottom of their hearts. It is well enough for this, that the French do not understand the "strong words" used by the English to give vent to their feelings. Tommy Atkins must have his soap, tooth brush, tooth powder, and all other utensils used by a man of modern culture in the morning and in the

evening, otherwise he does well and his humor is bad whole day. He prefers the knife to the bayonet, with cannot find charms—Tommy considers it beneath his dignified entrenchments and to do of work, which may cause so dirty wash and transpiration wants it to be understood that longs to the "elite" the "ari French, are merely Republic only knows what the million like that Kitchener promi French.

Seems to Flourish. "You can't get along in 1 out friends."
